Dear Commissioner Henney,

I am writing in support of a legal petition by the Center for Food Safety. I would like your agency to require that no new genetically-engineered foods or products with GE ingredients be released until the Food and Drug Administration requires long-term safety testing of all GE foods before they go to market. In addition, all GE foods presently on the market be labeled, giving consumers the right to know what's in the food they are eating.

Sincerely,

Carole Slucki
